Confirmation on Conflict Minerals Compliance

To whom it may concern,

In accordance with Section 1502 of the U.S. Dodd-Frank Wall Street Reform and Consumer Protection Act, companies listed with the U.S. Securities and Exchange Commission (SEC) are required to disclose the use of so-called "conflict minerals" and their derivatives – specifically columbite-tantalite (coltan) / tantalum; cassiterite / tin; wolframite / tungsten; gold - if these substances are necessary to the functionality or production of their products. The regulation aims to prevent the financing of armed conflict in the Democratic Republic of the Congo (DRC) and adjoining countries through the trade of these minerals.

Although PROFILMETALL GmbH is not subject to the reporting obligations under this legislation, we are aware of the importance of responsible sourcing. Based on this, we confirm that none of our products contain conflict minerals. Should small traces of these minerals be present in our products, they are there purely by chance. In such cases, any presence of these substances is unintentional and may result from the use of recycled materials, which are commonly found in global supply chains and can lead to trace amounts that are technically unavoidable.

For any further questions, please contact: sustainability@profilmetall.de.

Yours sincerely,

PROFILMETALL GmbH
